

I would like you to consider the effects of giving LPFM priority over FM translator service. K-Love Radio is a FM translator service and I know that we would suffer a great loss if we didn't have the signal. K-Love provides a great service of hope, encouragement, community, positive messages to reflect on, much needed prayers and information on christian based events. There is no other radio station like K-Love. I personally receive the uplifting I need every day from listening to them. And with all that is going on in my life right now, K-Love is where a get my hope for each day. Many of my friends listen to K-Love, some where brought to Christ thru listening to this station. Please consider how badly we all need something positive out there to listen and give us hope, especially in this confused world today.
